

The Street Homeless Prevention Service exists to assist and support people who are street homeless or at imminent risk of street homelessness by accessing services appropriate to meeting their needs and supporting them through a range of accommodation therefore preventing their return to a street lifestyle.

We therefore offer many practical ways for this to happen. This can be anything from obtaining a birth certificate to providing a rent deposit.

For people who are street homeless, we can offer practical support, someone to talk to, help to find more positive solutions to meet their immediate needs or put them in touch with a particular service (Doctor, Dentist, accommodation).

If you think this Team can help please contact us on: **023 8021 6000** or by asking any of the hostels or homeless agencies to call us for you.
