Vision

Southampton is our city where everyone thrives; we build on the strengths of our communities and our services are joined around individuals.

Purpose

To enable people in Southampton live safe, healthy, independent lives and for children and young people to get a good start in life.
To create the culture and conditions for health and social care to work together to deliver integrated, person centred, joined up care and support, for people in Southampton.
To provide the right care and support in the right place. at the right time: making every contact

Priorities

Supporting people to stay well
Improving on the day access to health and care
Improving access to specialist care

Proactively joining up care for those with complex or on-going needs
Improving access to step up and step down care

Our Values

Working together for patients
Everyone counts
Committed, professional, accountable

Person centred care
Shaping the future
Improving lives

Patient Outcomes

I feel part of my community
I have the information I need
I am supported to understand make choices
My independence is valued

The professionals involved in my care talk to each other
My families and carers are recognised and supported

Why Collaborate?

“When funding is tight, NHS, local authority and central government support for charities and voluntary organisations is put under pressure. However these voluntary organisations often have an impact well beyond what statutory services alone can achieve.”

“Too often the NHS conflates the voluntary sector with the idea of volunteering, whereas these organisations provide a rich range of activities, including information, advice, advocacy and they deliver vital services with paid expert staff.”

The above are quotes from the Five Year Forward View policy document.

Simon Stevens (CEO of NHS England) commits to designing easier ways for voluntary organisations to work alongside the NHS to improve outcomes.

In Southampton we want to turn this theory into practice.

Discussion Groups

1 What does good collaboration look like? (10 mins)

- What should it achieve?
- What should be the impact?

2 How do we make collaboration happen? (10 mins)

- How do we build those relationships?
- What ideas do you have to improve collaboration? Specific ideas welcome!

Thank You.
